Learning Assessments: Designing the future

Assessment needs reform and innovation

Teachers, community leaders, academics, policy makers and technologists: join with us to shape the future of assessment!

Invited researchers from Australia and overseas will present research on:

- alternatives to A-E grades
- stealth assessment through gaming
- assessing 21st century skills and general capabilities
- a growth mindset in assessment
- innovation to involve the community
- technologies to inform assessment and teaching

Professor Geoff Masters AO
CEO, ACER
Assessment Reform & Innovation: Designing the future
